

**I** Questo indispensabile accessorio protegge magistralmente i piedi del pilota e del passeggero in condizioni meteo sfavorevoli. Il montaggio estremamente semplice garantisce un risultato estetico funzionale di rilievo.

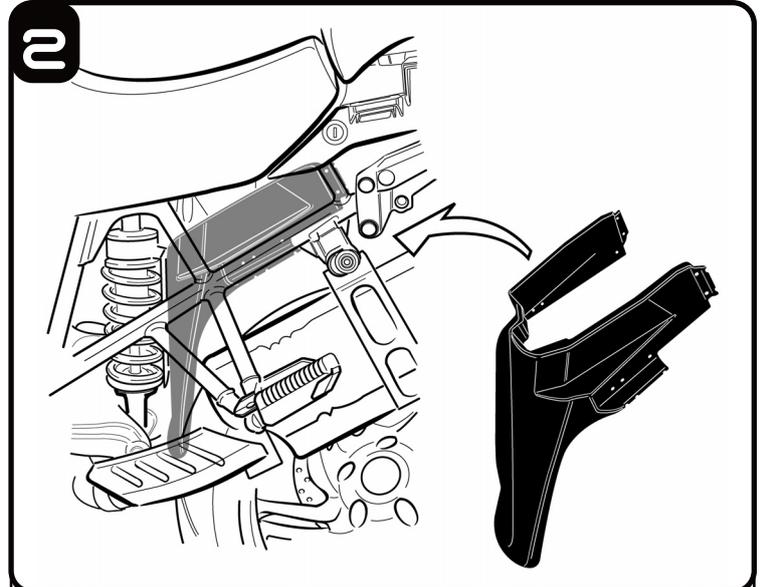

**GB** This indispensable accessory perfectly protects the driver's and the passenger's feet in unfavourable weather conditions. It is very easy to fit and assures a striking functional aesthetic result.

Prima del montaggio si consiglia di eliminare la copertura originale dell'ammortizzatore posteriore  
*Before fitting, it is advisable to remove the original guard of the rear shock absorber.*

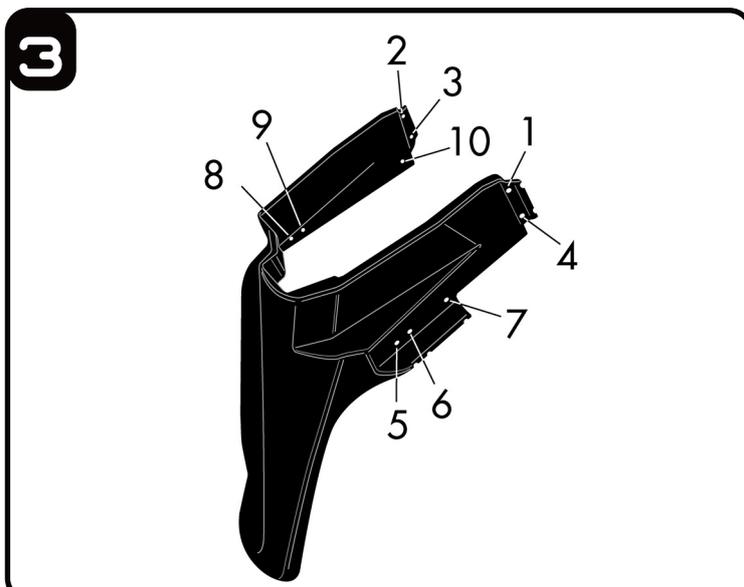

Sganciare il serbatoio dell'olio del freno posteriore (A).

*Detach the rear brake oil tank (A).*

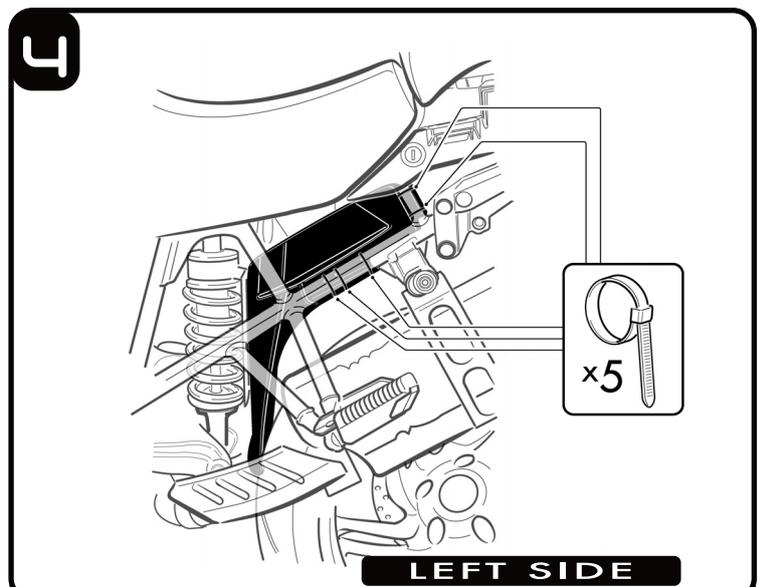

Posizionare con cura il 'Blackreef' tra sottocodone e telaio

*Carefully position 'Blackreef' between the undersaddle and the chassis.*

Infilare e stringere le fascette in dotazione seguendo la sequenza indicata.

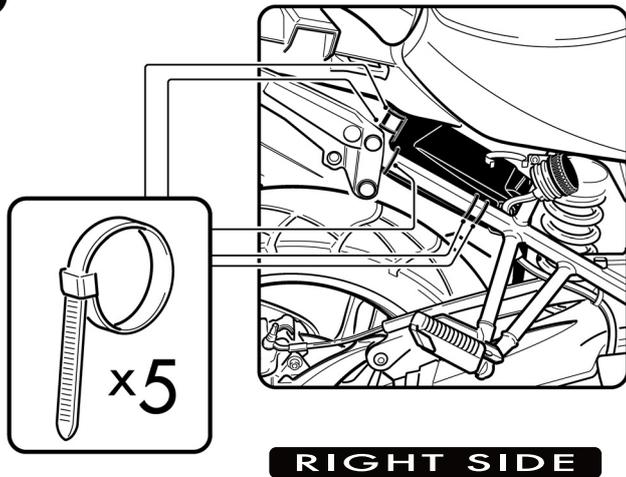

*Fit and tighten the clips provided following the sequence indicated.*

Serrare a fondo le fascette, avendo cura di nascondere il punto di giunzione (rif. fig. 6)

*Fully tighten the clips making sure that the joining points are concealed (Ref. Fig. 6).*

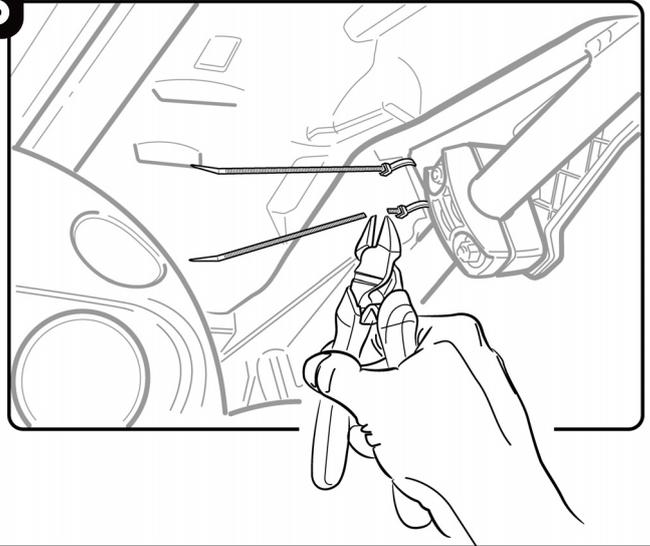

5

Verificare il corretto posizionamento del tubo del serbatoio e serrare a fondo le rimanenti fascette

*Check that the tank pipe is properly positioned and fully tighten the remaining clips.*

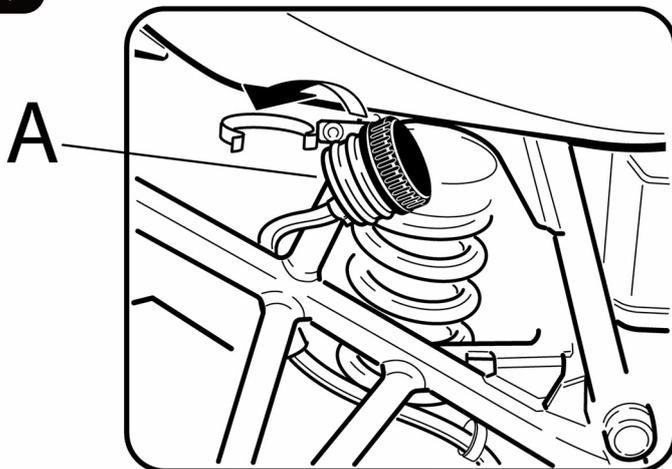

6

Rimuovere il materiale in eccesso

*Cut off the excess material.*

7

Riposizionare il serbatoio dell'olio nella propria sede

*Reposition the oil tank in its seat.*
